“Coming together is a beginning;
keeping together is progress;
working together is success.”

What does FunderHut do?

FunderHut is your community crowdfunding (social fundraising) platform, helping small businesses, nonprofits, and individuals with their fundraising goals.

What differentiates us from competitors?

+Our Funding Options:

***Fixed Vs. Variable Funding:** We offer **flexibility** with our funding options. With **Fixed Funding**, you must reach your goal amount in order to receive funds, otherwise they're returned to your contributors. With **Variable Funding**, you receive the funds regardless of the amount raised

+Community-Oriented and Mission-Based:

*Our **definition** of community is not limited by geographic boundaries, but rather, by like-minded individuals trying to achieve a certain **goal**.

+Commitment to Our Users:

*We Work **1-on-1** with each project creator with their campaign

*We have spent countless hours researching and putting together guides on how to be **successful** through crowdfunding.

*We help **market all of our projects** through various social media platforms.
